

Philip & Jennifer Adams

Serving in France

Philip and Jennifer come alongside local pastors within a network of 120 churches to provide pastoral care, mentoring, preaching and teaching. They also help grow and equip elders and ministry leaders and their wives within the churches, as well as serving churches through seasons of crisis. In addition, they help mentor a team that oversees twenty new church plants. Their desire is to “equip the saints for the work of ministry...” (Ephesians 4:12-13). Along with serving the local Church in France, Philip has many opportunities to travel to other countries, such as Haiti, Romania, and Ukraine, teaching and mentoring pastors and Christian leaders.

Prayer Requests

- For Philip: Pray for godly wisdom and insight as I encourage and mentor pastors and church leaders.
- For Jennifer: Pray for a more complete surrender to the sovereignty of God. Pray that I would care for those God has entrusted to me, while resting fully in His perfect plan and promises.
- Pray for our adult children, John and Harmonie, to grow spiritually, and to follow the purpose and calling of God for their lives.

Recent Update

Our church in Paris has a local missions ministry called "Street Pastor" where we connect with teenagers in the surrounding areas through weekly sports and events. These young people are from poor areas where gangs are a part of the social fabric and chances of life success are minimal. 75% of the kids who participate in Street Pastor are from Muslim families. We are praying that the Lord uses this ministry and our relationships with them to draw young people to Himself.

I (Philip) recently traveled with a friend to Lutsk, Ukraine, to visit with a church where we had served in the past. We were encouraged to see that this church is thriving and ministering to hundreds of refugees who are coming from Russian-occupied territories. This church is providing lodging, food, hope, healing and a chance for a new life. For some, it is the beginning of a new journey following Jesus Christ. We also spent our time ministering to

Ukrainian Army chaplains. These chaplains are mostly volunteers who drive to the front in teams of 12-15, bringing truckloads of food, medical supplies, and hope for the soldiers and the people living in villages on the frontlines. I plan to go back this Fall and continue training these and other Army chaplains who are sharing the hope of the Gospel while risking their own lives. Please pray for all those affected by the war.

Thank you for your partnership with us. You encourage us to keep our hand to the plow with your love and prayers for us.
